

Vidhi Aggarwal

Email: 2023pceadvidhi060@poornima.org | Phone: +91-8690750677 | [Git-Hub](#) | [LinkedIn](#) | [Portfolio](#)

Professional Summary

Enthusiastic problem solver with strong interests in Web Development, Data Analytics, and research-driven innovation. Proficient in Python, SQL, and data visualization, with experience transforming complex datasets into actionable insights and developing scalable technology solutions for real-world problems and data-driven decision making.

Technical Skills

- Programming Languages: C++, JavaScript
- Frontend Technologies: HTML5, CSS3, JavaScript (ES6), React.js, Bootstrap, Tailwind CSS
- Backend Technologies: Node.js, Express.js, REST API Development, Authentication
- Data Analytics: Power BI, MS Excel
- Database Management: MySQL, MongoDB
- Tools: GitHub, Visual Studio Code
- AI-Tools: Claude, Cursor, ChatGPT, n8n

Awards

- 1st Position – Tech-novation 2025, Poornima College of Engineering
- 2nd Position – AADHAR 2025, Poornima College of Engineering
- 1st Position – Tek Connect 2024, Poornima College of Engineering
- 1st Position – Model Presentation, Malaviya National Institute of Technology Jaipur (2024)
- 1st Position – APOGEE, organized by Birla Institute of Technology and Science, Pilani (2024)
- 2nd Position – ICI Fest 2024, Swami Keshvanand Institute of Technology
- 2nd Position – Abhivyakti Science Fair, 2024
- Selected in Internal Round of Smart India Hackathon (SIH) for Space Debris Detection and IoT-based Smart Glove System projects
- IoT Smart Glove Project selected for Young Innovators Challenge (YIC)

Projects

Blinkit Sales Analysis

Tools: Power BI, Excel, SQL

Analyzed Blinkit sales dataset using Power BI to identify key business insights including revenue trends, product performance, and outlet distribution. Built interactive dashboards and visualizations to track KPIs such as sales by category, location, and customer demand patterns to support business decision making.

Visita AI

Tools: React, Tailwind CSS, Node.js, Express, MongoDB

Developed Visita, an AI-powered web application with a modern, responsive UI using React and Tailwind CSS. Integrated backend APIs for real-time AI responses, along with features like dashboard visualization, dataset handling, and user authentication for scalable performance.

Space Debris Detection

Tools: HTML, CSS, JavaScript , Backend

Developed a web app for space debris detection and analysis. Implemented interactive visualizations to track debris and assess collision risks. Improved space monitoring through efficient, user-friendly insights.

IoT Smart Glove

Tools: HTML, CSS, JavaScript, C, Aurdino

Developed the frontend interface for real-time interaction and visualization of sensor data. Enabled gesture-based interaction and accessible communication through IoT integration.

AI Interview Coach

Tools: JavaScript, CSS, HTML, GENAI

Developed an AI-powered interview preparation platform that simulates interview questions and evaluates candidate responses. Designed to improve interview performance through AI-driven analysis and practice sessions.

Research Paper & Patent Publication

- Published research paper on 'Special Forces Defense Glove' in STM Journals in the domain of recent trends in sensor research and technology.
- Patent published of Special Forces defense glove

Education

B.Tech in Artificial Intelligence & Data Science, Poornima College of Engineering

CGPA: 8.96
